Example of the Wine Paris interface

The official website allows you to present your company to buyers and to prearrange your meetings before the show.

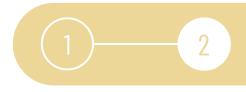

Optimize your page to attract buyers: the more complete your company page is, the more likely you are to be contacted by buyers.

We recommend that you define a **maximum of 30 business categories** in order to appear in the site's search filters. Be as relevant as possible to buyers.

Pre-schedule your appointments online.

You can send appointment requests to registered buyers to fill your stand diaries (limited number of messages, unlimited number of team members).

- We recommend that **you target the buyers you wish to meet**. Sending untargeted messages will clog up buyers' mailboxes and discourage them from using the Wine Paris portal.
- Options to increase your visibility: adding products to the online catalogue (7 times more clicks on your page), your banner on the site (100 times more clicks on your page), and more. Go to the online shop in the customer area, "Digital" module.
